# Exploring Government Funding to Businesses

By: Hanan, Tanvi, Vincent, Zorina

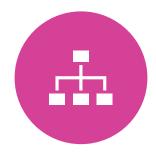

## **Program Streams:**

REVENUE GENERATION

**PROMOTION** 

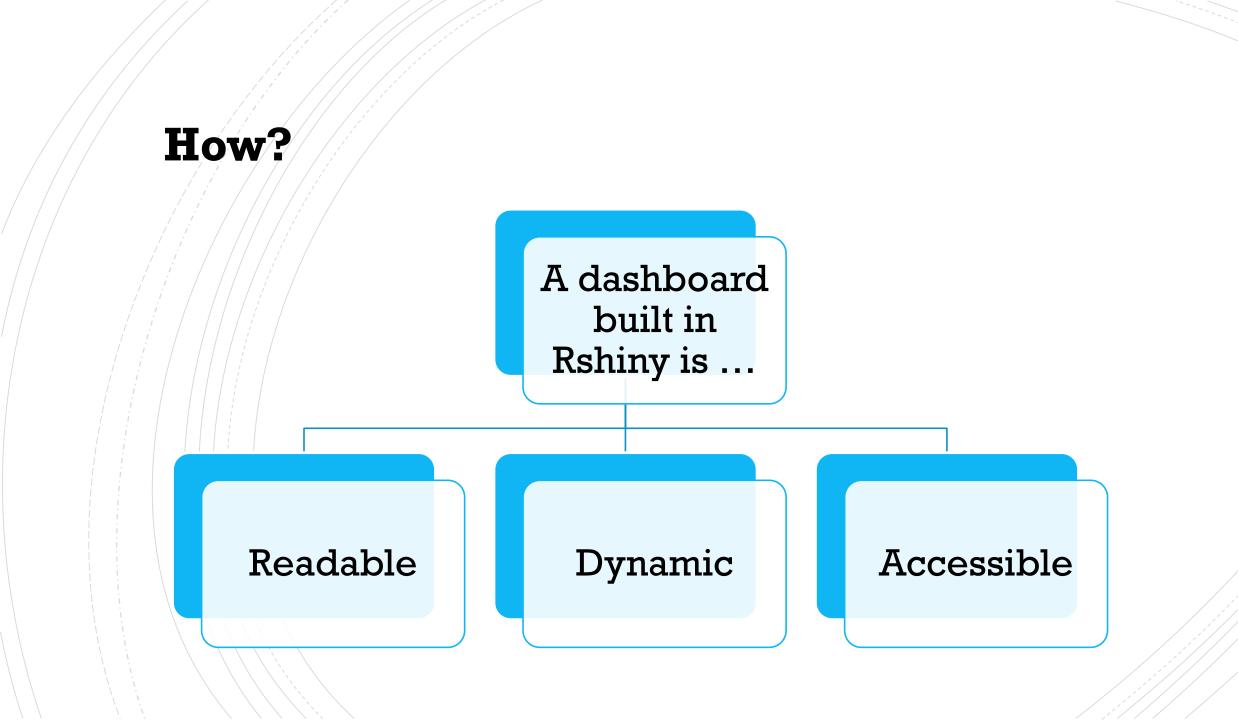

ORGANIZATION

RESEARCH

- Identify Program Stream
- Track how they spend the contributions and grants
  - Revenue
  - Generation of Intellectual Property
  - Satisfaction of general population
- Determine if the program should continue

## The story we want to tell:

#### **Exploring Government Funding to Businesses** Number of Transfer Payment Program **English** Innovation, Science and Economic Develo ■ French Natural Resources Canada Agriculture and Agri-Food Canada 18.9% Federal Economic Development Agency for Southern Ontario National Research Council of Canada Atlantic Canada Opportunities Agency -1.11% 6.67% Canadian Heritage 1.11% Fisheries and Oceans Canada 2.22% Natural Sciences and Engineering Research Council 2.22% 5.56% Western Economic Diversification Canada Canada Economic Development for Quebec Regions 5.56% Canadian Northern Economic Development Agency Environment and Climate Change Canada Global Affairs Canada Canada Institutes of Health Research Canadian Space Agency Breakdown by Departments Agriculture and Agri-Food Canada programs\$Department programs\$DRF.Program programs\$Description.EN Agriculture and Agri-Agricultural Greenhouse The Agricultural Greenhouse Gases Program helps organizations, academic institutions and other levels of government enhance th understanding and accessibility of agricultural technologies and beneficial management practices that can be adopted by farmers Food Canada Gases Program to mitigate greenhouse gas emissions in Canada. Research under this program aims to increase the understanding of the chemical physical and biological processes that lead to greenhouse gas emissions from agricultural systems into surface water, ground water and the atmosphere. Agriculture and Agri-AgriScience The AgriScience program accelerates the pace of innovation in the sector by supporting industry-led research and development to Food Canada increase market opportunities in the agriculture, agri-food and agri-based products sector. The program is delivered through two

### Future Improvements

Web scraping through government websites to give more indepth view of how money is sent

Using API's to look at social media postings to determine general sentiment of public

Development of a cleaner set of data for better usability
